Uncovered visits — scheduled and completed appointments

These appointments have no covering approved authorization in this report: scheduled visits on or after the as-of date, and visits recorded as completed. Check the referenced source rows and authorization worklist. Past appointments still marked scheduled remain in Visit status review. This view does not change attendance, authorization rules or staff work states.

2 appointments; complete review, ordered by date.

Visit / type	Date	Recorded status	Patient	Visit clinic	Therapist	Payer	Source row
NO-AUTH treatment	2026-10-09	scheduled	Fictional Pending P5	Clinic Unknown	Therapist D	Fictional Plan <script>>window.__allocatedInjected=1</script> & "one" PAY1	schedule.csv:row15
P1-OUTSIDE treatment	2026-11-03	scheduled	Fictional Alex literal P1	Clinic Z	Therapist A	Fictional Plan <script>>window.__allocatedInjected=1</script> & "one" PAY1	schedule.csv:row19

Allocated visits

These are the visits the existing ledger assigned to approved authorization periods. Used means recorded completed; reserved means recorded scheduled, including past dates still marked scheduled. Review both source rows against the input exports. This assignment is not confirmation from a payer.

Complete review: 13 allocated visit(s). As of 2026-10-08; clinic time zone: UTC.
